

Technical data sheet

Cutting board Type STAR 85

colour	-	natural
Specific weight	-	1140 kg / m³
Shore hardness D	acc. ISO 868	approx.. 85
Tensile strength	acc. EN ISO 178	- MPa
E-Modulus	acc. EN ISO 178	3000 MPa
Impact strength Charpy at +23°C	acc. EN ISO 179	without break
Impact strength Charpy at - 20°C	acc. EN ISO 179	- kJ/m²
Water absorbtion	-	yes

These values were taken from samples from current production and can vary with the next production. If you need confirmed values please come back and we have to give you a confirmed data sheet.

III High Quality cutting boards

from thermoplastic material
for trouble-free cutting
of soft materials
